An international Conference on "Accessibility in tourism: an ethical value, a business opportunity" is being held on February 14, 2013 (2 p.m., Sala Gemini). The event is organized by the Permanent Secretariat of the UNWTO World Committee on Tourism Ethics, hosted by the Presidency of the Council of Ministers at the Office for Tourism Policies of the Department of Regional Affairs, Tourism and Sport.

Designed as an un-conference, the meeting will provide a valuable opportunity for discussion on the importance of accessible tourism as a factor of economic growth and a powerful leverage for profitable business and job creation. Minister for Regional Affairs, Tourism and Sport, Piero Gnudi and UNWTO Secretary General (World Tourism Organization), Taleb Rifai, will open the event.

During the debate, international and national entrepreneurs, who have distinguished themselves for a fully accessible tourism offer, will answer questions raised by students in tourism management from the most representative Italian universities.

The event will see the launch of the national call for proposals of the European project EDEN 2013 on accessible tourism, aiming at identifying emerging tourism destinations, pursuing tourism development strategies based on accessibility. The call for proposals, as well as the application forms, is downloadable from the webpage: http://www.affariregionali.it/ from the date of the launch.

Simultaneous interpretation English-Italian available.
