# Report of the Secretary-General

## Part II: Programme of Work

### (b) Draft Programme of Work and Budget of the Organization for 2018-2019

#### Introduction

---

1. The Secretary-General, in accordance with Article 23(2) of the Statutes, presents to the Executive Council at its 105th session, the present draft Programme of Work and Budget for the period 2018-2019.
2. This proposal has been prepared with the objectives of:
  - (a) ensuring continuity with the Programme of Work and Budget 2016-2017, including challenges that were identified during this period, such as the impact of new technologies on tourism, as well as the security agenda;
  - (b) following the principles of the Global Code of Ethics for Tourism;
  - (c) mainstreaming tourism in the global agenda, maximizing the contribution of tourism to the Sustainable Development Goals (SDGs) and the 2030 Sustainable Development Agenda; and
  - (d) including the new priorities expressed by UNWTO Members (Full, Associate and Affiliate), notably through the survey on Members' priorities conducted at the end of 2016.
3. The corresponding budget envelope is detailed in in the Draft budget 2018-2019 section of the document. The proposal maintains the tight financial limits of previous biennia with no increase in the assessed individual Members' contributions (excluding impact of changes in contribution groups of Members) for 2018 and a 4% increase for 2019. This proposal aims to balance Members' expectations for budgetary restraint while minimizing impacts in the effective delivery of the Programme of Work.

#### Strategic objectives for 2018-2019

---

4. As in previous biennia, the programme of work is structured along two interdependent strategic objectives: (a) improving competitiveness and quality, while (b) promoting sustainability and ethics in tourism development.
5. These two objectives are framed within, and supported by, the crosscutting functions of the Organization, i.e., member relations, governance, management and communication, which are presented at the beginning of part III of the present document.
6. The **first strategic objective** aims at improving the competitiveness of the tourism sector of the Member States by promoting quality, innovation and the use of technologies in tourism policy and destination management, product development and marketing, advancing travel facilitation, mitigating seasonality, providing updated and relevant market information and data on (a) trends, (b) forecasts and (c) the contribution of tourism to the economy and employment.
7. The **second strategic objective** aims at promoting sustainability and responsibility in all aspects of tourism development among both private and public sectors. This includes the promotion of

ethical policies, behaviour and practices, improving resource management, enhancing accessibility for all, advancing tourism's contribution to peace, development, poverty alleviation and the preservation of cultural heritage and natural environments, fighting against climate change, ensuring (a) a full integration of tourism into local economies, (b) a fair distribution of the sector benefits amongst host communities, (c) their full engagement in tourism development, (d) respect for their social and cultural values and (e) an overall contribution to the resilience of the sector.

8. The unique opportunity represented by the **International Year of Sustainable Tourism for Development 2017 (IY2017)**, as well as the top prioritization by UNWTO Members of the concept of "Tourism for Development" through the survey on priorities that was conducted at the end of 2016, have shaped the efforts of the Secretariat to work in line with the 2030 Agenda for Sustainable Development and the Sustainable Development Goals (SDGs). Tourism is explicitly mentioned in three specific targets of the SDGs, namely 8.9, 12.b and 14.7, but due to its cross-cutting nature, the tourism sector has the capacity to contribute to all seventeen goals of the **2030 Agenda**.

## Draft budget 2018-2019 – Regular Budget

---

### Introduction

10. The proposed 2018-2019 budget is based on having zero nominal growth in the Members' contributions for 2018 over their 2017 contributions and a 4% increase in the 2019 contributions over 2018. It is worth to highlight that, in real terms, the 2018-2019 proposed budget remains lower than the one approved for 2008-2009 even when the 4% contributions increase in 2019 is taken into account. This budget proposal for 2018-2019 represents in fact less than a zero real growth increase with respect to the 2016-2017 budget. Subsequent clarifications and budget tables explain the relevant parameters of this proposed budget envelope. The proposed Programme of Work and Budget is seen feasible taking into account increased efficiencies by the Secretariat and heavier reliance on cooperation with external parties, technically and financially.

### Revised budget 2016-2017

11. The General Assembly at its 21th session in Medellin (Colombia) approved the Programme of Work and Budget of the Organization for the period 2016-2017 (A/RES/651(XXI)). The Programme of Work was presented in accordance with the standard description for that document, around two independent strategic objectives: (i) improving competitiveness of the Member States' tourism sector, and (ii) promoting sustainability and responsibility in all aspects of tourism development among both private and public sectors and in the framework of the Post-2015 Sustainable Development Goals. The programme-based budget was classified in accordance to four major programmes (Regional, Operational and Direct and Indirect Support programmes), following the recommendations of the 19th General Assembly (A/RES/603(XIX)) and the guidelines of the White Paper.
12. The budget envelope for the 2016-2017 biennium ((A/21/8(l)(b))) is EUR 26,984,000, resulting in having extended the 2014-2015 zero nominal growth to the following biennia.
13. The structure of the 2016-2017 budget approved by the General Assembly has slightly evolved since its approval in 2015 and up to 31 December 2016 as presented in document UNWTO Financial Report and Audited Financial Statements for the year ended 2016 (CE/105/7(b)). The main changes up to 31 December 2016 referred to: (i) movements of staff posts among programmes, (ii) slight variations in the name of some programmes: Fairs and Special Field Projects is now called Special Field Projects, and (iii) grouping of areas of work within different programmes with: the Fairs activity being added to the Communications and Publications programme and, the UNWTO liaison office of Geneva activity being added to Management programme.
14. These changes in the 2016 budget structure were approved by the 103rd and 104th Executive Councils (CE/103/7(a) and CE/104/7(a) in their decisions CE/DEC/8(CIII) and CE/DEC/8(CIV) respectively) and have resulted in the redeployment of staff positions amongst Programmes. These changes have been made within approved resources.
15. During the period 1 January 2017 to 31 March 2017, the Secretary-General has reviewed the structure of the Organization and the resulting 2017 proposal of structure modification is presented in this document. Main updates on the Organization structure at 31 March 2017 with respect to 31 December 2016 structure are: (i) movements of staff posts among programmes

---

and, (ii) grouping of areas of work within different programmes: now former programmes of Statistics and Tourism Satellite Account and Tourism Market Trends have been merged into a single programme named Statistics, Trends and Policy, and (iii) the Legal Counsel functions now fall under the scope of Management.

16. These changes in the 2017 budget structure have resulted in the redeployment of staff positions between Programmes. These changes have been made within approved resources.
17. Table 1, 2016-2017 Budget as approved by the 21th General Assembly (A/RES/651(XXI)), shows the originally approved 2016-2017 budget and Table 2, 2016-2017 Revised appropriations in accordance to new structure proposed by the Secretary-General, presents the revised budget for 2016-2017 in line with the updated Programme of Work structure of 31 March 2017 as presented in this document. Irrespective of these structural changes, the budget envelope of the Organization for 2016-2017 remains unchanged at EUR 26,984,000.

## 2018-2019 Budget envelope

18. The 18th, 19th and 21st General Assembly sessions approved the budgets for 2010-2011 (A/RES/572(XVIII)), 2012-2013 (A/RES/603(XIX)), and 2016-2017 (A/RES/651(XXI)) which represented zero nominal growth in contribution revenue and budget appropriations. The 20th General Assembly session approved a budget for 2014-2015 (A/RES/619(XX)) which absorbed a 2.8% increase as accumulated price adjustment. Table 3 shows the Budget envelope evolution since biennia 2008-2009 in nominal and real terms. As can be seen from these budgets, the Secretariat has embarked on significant re-structuring efforts, aimed largely at reducing costs and enhancing efficiency within the budget envelope for the last nine years.
19. As a direct result of the application of this policy since 2010 and taking into account the budget increase of 2.8% in the biennia 2014-2015, the budgets of the Organization up to 2017 have experienced an accumulated loss of purchasing power of some 7% due to inflation. Price adjustment expectations for the years 2018-2019 in Spain have been prudently estimated by the Secretary-General at around 1.3% annually, and if no increases were approved in the budget for 2018-2019, additional losses in purchasing power would be incurred, bringing the total loss at around 9% up to 2019. This represents a negative real growth in the resources of the Organization over this period. The impact a zero growth being extended over two additional years is seen as significantly detrimental to the capacity of the Organization to manage and implement the mandate embedded in the White Paper and in this document. The negative impact is more pronounced given the relatively small size of the Secretariat and the requirements imposed by the United Nations family of organizations to its members. Annex II on Price and statutory costs adjustments, provides evolution of price adjustment for Spain compared to approved/proposed budgets.
20. In this context and following the proposal of the Programme and Budget Committee (CE/103/4) and the Executive Council decision (CE/DEC/7(CIII)) "to reconsider the practice of the zero nominal growth for the preparation of the budget for 2018-2019" the Secretary-General proposes: (i) to maintain Members' contributions for 2018 at the same level as Members' contributions set for 2017, i.e. with zero nominal growth compared to 2017 and, (ii) to increase the Members' contributions for 2019 a 4% over the 2018 level in order to maintain implementation capacity of the Programme of Work. This would mitigate the inflation increases in recent years to some

extent but the Organization would be still facing a loss of purchasing power of 6.2% for the period 2009-2019.

21. Therefore, it is proposed that in 2018 the individual contributions of Full and Associate Members will remain at the same level as assessed contributions for 2017 with zero nominal growth for Members, unless they are subject to increases or reductions of up to 7.5% annually for changing group. Likewise, for 2019 it is proposed that Full and Associate Members' contributions will increase by 4% unless they are subject to increases or reductions of up to 7.5% annually for changing group.
22. The budget for 2018 and 2019 has to be adjusted in its categories of expenditure including staff costs as they are determined by the International Civil Service Commission (ICSC) and updated by the United Nations General Assembly.

## Income budget

23. The Organization's income is budgeted on account of assessed contributions (Full, Associate and Affiliate Members) and the financial result of publication sales.
24. Contributions for Full and Associate Members are assessed in accordance to the proposed scale for 2018 and 2019 as shown in Annex I, Contributions of the Full, Associate and Affiliate Members. Contributions for 2017 are also included in the scale for ease of comparison. The

propose scale of contributions is calculated following Annex II of the UNWTO Financial Regulations (FR) on the Formula for fixing the contributions of Member States.

25. Allocation from Publications store accumulated surplus remains at the same level as the total budgeted amounts in 2016-2017, following a steady pace in sales of publications. The Secretariat is working on other exchange revenue initiatives which may complement this allocation. UNWTO does not propose other unrestricted accumulated surpluses to use as budgetary income resources. UNWTO accumulated surpluses are shown in the document on UNWTO Financial Report and Audited Financial Statements for the year ended 2016 (CE/105/7(b)).
26. Contributions for Affiliate Members are assessed using the average number of members based on past experience which contribute a fix annual amount of EUR 2,400 since the biennia 2008-2009 as per A/17/8 (A/RES/526(XVII)). The Executive Council's decision on a fee deduction for specific Affiliate Members (Tedqual members) as outlined in document EC/95/6(c) (CE/DEC/20(XCV)) has also been taken into account.
27. Table 4, 2018-2019 Proposed income and expenditure budget compared with 2016-2017 budget, presents the budgetary income and expenditure approved for 2016-2017 and proposed for 2018-2019. As required under UNWTO Detailed Financial Rule (DFR) III.7, this table presents the budget by Parts (Major Programmes), financial year and financial period. Additional budget tables in this document are provided for information purposes as required by UNWTO Financial Regulations 4.3 and 4.4.

## Expenditure budget

28. The 2018-2019 budget structure is unchanged from the revised 2016-2017 budget structure at 31 March 2017 as explained above.
29. Table 5, 2018-2019 Proposed appropriations and 2016-2017 approved appropriations - Analysis of changes by major programme and programme, shows the proposed budget for 2018-2019 as

compared to the approved budget for 2016-2017, total variation and its split between price and volume changes. As in previous biennia, expenditures are kept in balance with budgeted income, hence avoiding the Organization having to incur a deficit or unused resources. Concerning price changes, the average inter-biennial adjusted salary growth adopted (i.e. 0.76% per year, for two years), results in a combined price change of 1.52%. Volume changes in staff costs internalize the new structure of the Organization's Management and the vacancy rate which needs to be embedded in the budgetary estimates (approx. 13%).

30. After-service employee benefits (ASEB) provisions as based on expected annual disbursements (pay-as-you-go (PAYG) approach) of after –service employee benefits expenses for after-service health insurance (ASHI) and other after-service benefits. Detailed information on after-service employee benefits liabilities, ASHI, funding of the liabilities and UN ASHI Working Group progress is shown under document CE/105/7(b) on UNWTO Financial Report and Audited Financial Statements for the year ended 31 December 2016.

## **Actions to be taken by the Executive Council**

---

32. The Executive Council is invited:
- (a) To adopt the draft general Programme of Work and Budget of the Organization for the period 2018-2019, for a total amount of EUR 27,573,000, prepared by the Secretary-General in accordance with Article 23(2) of the Statutes, and to authorize the Secretary-General to execute the Programme of Work and Budget for 2018-2019 in accordance with the amounts collected, establishing a plan of expenditure for that purpose and keeping with the satisfactory budgetary practice established in the previous financial years;
  - (b) To take note of the changes made in the structure of the revised budget for 2016-2017 as presented in this document at 31 March 2017 and
  - (c) To note with appreciation the Secretary-General's proposal to present a balanced budget for the biennium 2018-2019, with zero nominal growth in Members' contributions for 2018 over 2017 and with a 4% increase in 2019 over 2018;
  - (d) To approve the proposed scale of contributions for 2018-2019 as modified to reflect the 0% and 4% annual growth in individual country contributions with respect to 2017 and 2018 respectively, except when required by technical changes in the class situation of individual country cases and changes in membership as appropriate;
  - (e) To take into account that the level of the budget for 2018 and 2019 will be of EUR 27,573,000, and to endorse that the budgetary income approved for the next biennium should be provided by the contributions of the Full and Associate Members in the rounded amounts of EUR 12,623,000 for 2018 and EUR 13,166,000 for 2019, and that the balance to be financed should be covered by the contributions of the Affiliate Members and the other sources of funding referred to in the corresponding document taking into account there might be adjustments necessary in case of new Affiliate Members' joining or withdrawing from the Organization; and to agree that, in accordance with resolution A/RES/526(XVII), the contributions of the Associate Members be divided into two separate categories, each being 10% lower than the contribution of the Full Members in groups 13 and 9 respectively;
  - (f) To adopt the recommendation of the Executive Council (A/RES/526(XVII)) to maintain the contribution of the Affiliate Members at EUR 2,400 per year for the period 2018-2019 and to support the decision CE/DEC/20(XCV) taken by the Executive Council on proposed deductions for specific members as outlined in document CE/95/6(c);
  - (g) To support the Secretariat to further continue with its efforts in cost savings and control of expenditures and to take note that the Programme and Budget only includes Regular Budget programmes within the General Fund and to note that Other programmes within the General Fund or Other Funds (Voluntary Contributions Funds and Fund In Trust) will be added to the Organization's output and reinforce the resources and thus the activities of the Organization, especially in respect of technical cooperation; and
  - (h) To commend the Members of the Programme and Budget Committee and its Chair for their valuable contributions to the preparation of the Organization's draft Programme of Work for 2018-2019.

## Annex I: Contributions of the Full, Associate and Affiliate Members

---

1. With regard to the financing of the Organization's budget, Article 25.1 of the Statutes stipulates that:

*"1. The budget of the Organization, covering its administrative functions and the general programme of work, shall be financed by contributions of the Full, Associate and Affiliate Members, according to a scale of assessment accepted by the Assembly and from other possible sources of receipts for the Organization in accordance with the Financing Rules which are attached to these Statutes and form an integral part thereof."*
2. Table 4 above, 2018-2019 Proposed income and expenditure budget compared with 2016-2017 budget, shows that the part of the budget to be financed with the contributions of the Full Members is EUR 12,414,000 for 2018 and EUR 12,944,000 for 2019. The rounded above-mentioned amounts have been apportioned among 156 Full Members by applying the formula for calculating the contributions of the Member States (Annex II of the UNWTO Financial Regulations (FR) on the Formula for fixing the contributions of Member States).
3. The estimates of contributions have been made in accordance with the statistical data provided by the United Nations concerning Gross National Income (GNI), Gross National Income per capita (GNI PC) and population, available to the UNWTO as of February 2017, and which were used by the UN to calculate the contributions of its Members. The reference period for these statistical data is 2008-2013<sup>1</sup>. These set of statistical data replaced that used for the 2016-2017 biennia (i.e. 2005-2010) resulting in same Members changing contributions group.
4. The total number of Full Members included in the scale of contributions for the period 2018-2019 (156 Full Members) has changed with respect to the period 2016-2017 (157 Full Members). As a result of this modification in the composition of the Full Members, steps have been taken to adjust the scale of contributions in accordance with Annex II of UNWTO Financial Rules. The number of groups remains at thirteen.
5. It should also be noted that following Annex II of the UNWTO Financial Rules, a limit of 7.5 per cent for 2018 and 2019 of 7.5% has been applied to increases in contributions in the case of those Members whose contributions would rise beyond this percentage as a result of moving to a higher group in the scale of contributions. Likewise, similar operations have also been made to limit the reduction in contributions as a result of Members moving to a lower group, in order to balance the income from contributions.
6. After the application of the above-mentioned limits, the Secretary-General proposes that contributions for 2018 and 2019 increase by 0% and 4% respectively in relation to the contributions approved for 2017 and 2018 for those Members that do not change group and are not subject to adjustment of their contribution because of an earlier change in group.
7. According to the measures established at the seventeenth General Assembly in resolution A/RES/526(XVII), the Associate Members Flanders, Hong Kong (China) and Macao (China), were included in a separate category from other Associate Members based on

<sup>1</sup> UN document A/70/11

90% of the contribution due for Full Members in group nine. The contribution of the rest of the Associate Members is maintained at 90% of the minimum contribution of the Full Members. The total rounded amount to be financed by the Associate Members is EUR 209,000 for 2018 and EUR 222,000 for 2019.

8. Concerning Affiliate Members, the Secretary-General proposes to the General Assembly that the contribution fee of the Affiliate Members remain at the same level as during the period 2016-2017, amounting to EUR 2,400 per year as approved by the seventeenth session of the General Assembly (A/RES/526(XVII)). Of this amount, EUR 1,400 will be allocated as a contribution to the Organization's budget, EUR 400 for full annual access to UNWTO's E-library and EUR 600 assigned to the activities of the Affiliate Members programme of work. The total budgeted income to be financed by the current and new Affiliate Members is EUR 652,000 and EUR 655,000 for 2018 and 2019 respectively of the next period. It is also noted that a deduction on this fee in 2018 and 2019 for specific Members has been applied in accordance to Executive Council decision CE/DEC/20(XCV) as outlined in document CE/95/6(c).
9. The table below on 2018-2019 UNWTO Membership contributions shows the scale of unrounded contributions of the Full and Associate Members for 2018 and 2019, expressed in euros, in accordance with decision CE/DEC/10(LXIII-LXIV) of the Executive Council.

## **Annex II: Price and statutory cost adjustments**

---

1. The purpose of this Annex is to provide information on price adjustments and statutory cost adjustments. Due to the nature of these adjustments, prices and statutory cost adjustments have an impact on the expenses incurred by the Secretariat, irrespective as to whether an additional budget provision is made for them or not.

### **Price adjustment indicators**

2. As UNWTO Headquarters is in Madrid, most of UNWTO expenses are incurred or are related to prices in Spain. The relevant price adjustment indicator for Spain is the Consumer Price Index (CPI) as provided by the Spanish National Statistics Institute ("Instituto Nacional de Estadística" / INE). CPI for Spain for the years 2014 to 2016 as published by INE was -1.0%, 0.0% and 1.6% in each of the respective years. Nevertheless, INE does not provide CPI forecasts for the years 2017 and beyond. By contrast, price adjustment indicators forecast for Spain (CPI, inflation, Gross domestic product (GDP) deflator, Harmonized index of consumer prices (HICP)) are published by other sources such as International Monetary Fund (IMF), Organisation for Economic Co-operation and Development (OECD), or Bank of Spain ("Banco de España" / BDE). After analysing them, the Secretary-General has considered reasonable to choose a 1.3% as price adjustment for Spain for both 2018 and 2019.
3. For the purpose of assessing the evolution of prices in Spain and the cumulative inflation since 2010, the annual CPI for Spain as provided by INE for the years 2009-2016 as well as UNWTO price adjustment estimates for the years 2017-2019 have been analysed. The table below, Evolution of price adjustment for Spain vs. approved/proposed budgets, shows the evolution of the price adjustment for Spain and compares the price adjustment base index (base 100 for 2009) with the approved and proposed budgets base index (base 100 for 2009).

4. The remuneration of staff in the Professional and higher categories consists of a base salary and a post adjustment. The base salary scale is published, and periodically updated, by the International Civil Service Commission (ICSC) in New York. The ICSC also publishes a monthly post adjustment index, reflecting the evolution of the cost of living at UNWTO's Headquarters. Since UNWTO is a specialized agency of the United Nations, it cooperates with ICSC periodically in conducting "Place to place surveys" to determine the level of the cost of living at Madrid for United Nations system officials. Surveys are normally conducted every five years. The last such survey was conducted in September 2010. The survey resulted in a 0.92 per cent increase in the post adjustment for Madrid. During October 2016, a new survey has been conducted which result is still unknown at the time of writing this report. The outcome of the survey will be announced in 2017. The cost estimates for this staff category in 2018-2019 have been based on the planned staffing level for the biennia, taking as reference the base and pensionable salary scales in force on 1 January 2017, statutory increments due, plus an adjusted provision for salary growth (price adjustment plus productivity growth of 0.05) of 1.0% for the possible annual increase in the cost of living. However, due to budgetary restrictions, staff costs in this category have been adjusted downwards which means not being able to fill 9 vacancies in this category during the biennia 2018-2019.
5. The estimated costs for General Service staff for 2018-2019 are based on the budgeted staffing level in this category. The salary scale for General service officials is published by the ICSC and is expressed in euros. Since April 2004, the ICSC has determined the annual increases by reference to the Spanish cost of living index. The salary scale effective 1 October 2013 and amended on 1 October 2016 has been used to determine staff costs in

[Type text]

this category, after making allowance for statutory increments and the 1.35 % annual provision for salary growth (price adjustment plus productivity growth of 0.05) in the cost of living for Madrid. This scale has been established by the United Nations on the basis of the results of the comprehensive survey carried out in Madrid in October 2013. Nevertheless, as mentioned before, the staff cost in this category also had to be adjusted downwards which means not being able to fill 5 vacancies in this category during the biennia 2018-2019.

6. The combined effect of these budgetary adjustments in both categories amounts to EUR 2,634,000 for the period 2018-2019, EUR 1,310,000 in 2018 and EUR 1,324,000 in 2019. Therefore, in order to meet the proposed staff cost of EUR 20,350,000 for the period 2018-2019, EUR 10,050,000 in 2018 and EUR 10,300,000 in 2019, the adjustment have to be compensated through the non-filling of vacant positions by some 13% resulting in an effective decline in the staff strength on positions effectively filled.
7. The basis for calculating contributions to the United Nations Joint Staff Pension Fund (UNJSPF) is unchanged with respect to the period 2016-2017. In effect, of the total contribution rate of 23.7 per cent (the rate currently applicable in the UNJSPF), the two-thirds financed by the Organization will amount in this case to 15.8 per cent of pensionable remuneration for the financial years 2018 and 2019. It should be mentioned that the contribution to the fund must be in USD. If the USD continues to strengthen against the EUR, UNWTO's contribution to the Fund may result in significant additional costs.
8. For the purpose of the 2018-2019 budget, an increase of 1.0% for the Professional and higher categories and of 1.35 % for the General Service category increase of the staff health and accident insurance premium rates over the premium rate fixed for 2008 is expected in 2018-2019. As a result, the rate foreseen to be contributed by the Organization is equal to 7.67 per cent for 2018 and 2019 of gross staff remuneration.
9. The International Civil Service Commission (ICSC) in New York provides a monthly schedule of daily subsistence allowance (DSA) rates for those places where the United Nations has ongoing project activity or where officials of the Organization are obliged to visit. This allowance is intended to account for lodging, meals, transfers and other expenses of United Nations staff while on mission. The circular is revised monthly, by the 5th of the month, in response to exchange rate fluctuations, as well as on the basis of up-to-date hotel and restaurant data. No increase in these costs has been estimated for the 2018-2019 budget.

### Annex III: Schedule of established posts

---

UNWTO proposes to continue with the approved 106 positions. The distribution for 2018-2019 maintains the total number of posts but with a variation of four more positions in the Professional and Higher categories and four less in the General Service category. As explained in the budget proposal, it will be necessary to maintain 14 vacancies unfilled on average or 13% of total posts, due to budgetary restrictions.
