CyArk is a non-profit organization dedicated to the digital preservation of cultural heritage sites through the use of innovative methods to collect, archive, and provide open access to data created by laser scanning, digital modeling, and other advanced technologies.
Chichen Itza | Mexico
Rosslyn Chapel
CyArk’s program to digitally document the 21 missions, 4 presidios and 3 pueblos along El Camino Real de California.
Interactive Map

CyArk has built an interactive map that allows visitors to see El Camion Real at different time periods and learn about each of the missions, presidios, pueblos, and maritime routes.
